## Need more reasons than a 0% finance rate?

Ask your dealer about Komatsu's best in class undercarriage assurance.

### **Conventional, Standard link assembly**

Works well in all applications.

### **General construction (GC) link assembly**

Lower cost option for machine working in light and medium duty applications.

### **PLUS Parallel link assembly**

Our longest-lasting option that works well in all applications, especially high abrasion.

### **PLUS Fit link assembly**

A fixed bushing link assembly option for when you need to replace worn out PLUS links but still have life on the existing shoes and rollers.
